PROFILE

Sustainability professional with 2.5 years of experience in food supply chains, specializing in GHG assessment, sustainability data analysis, and Social Return on Investment (SROI). Experienced in designing field assessments, validating primary data, developing farm-level emission factors, and translating technical findings into actionable recommendations.

CORE EXPERTISE

GHG & Carbon Assessment
Carbon Footprint for Organization (CFO), Scope 1, Scope 2 & selected Scope 3, Life Cycle Inventory (LCI), emission factor assessment, system boundary setting, IPCC AR5 GWP100

Social Impact Assessment
Social Return on Investment (SROI), questionnaire design, field data collection

Data & Analysis
Primary data validation, data cross-checking, source tracking, Microsoft Excel, PivotTables, dashboards

Technical Reporting
Methodology documentation, technical reports, recommendations, management reporting

EDUCATION

Kasetsart University **Jul 2019 - Apr 2023**
Bachelor of Arts in Public Administration
GPAX: 3.23

PROFESSIONAL EXPERIENCE

Doi Kham Food Products Company, Limited **Jan 2024 - Jun 2026**
Social Enterprise and Sustainability Information Officer

- **Conducted Carbon Footprint for Organization (CFO)** assessment across 3 manufacturing facilities and 1 head office, covering Scope 1, Scope 2 and selected Scope 3 activities.
- **Developed a company-specific Emission Factor (EF)** for fresh tomatoes through farm-level GHG assessment and primary data validation across 60 ICS-GAP farmers, resulting in 0.1577 $kgCO_2e/kg$ with a 95% confidence interval.
- **Conducted SROI assessments** for tomato procurement and community engagement programs to evaluate social, economic, and environmental outcomes.
- **Analyzed and validated sustainability data** including activity data, emission factors, survey results, and supporting evidence, using Excel, PivotTables and dashboards.
- **Prepared technical reports and management presentations**, translating GHG, ESG and social-impact data into findings and recommendations for decision-making.

TRAINING

Thailand Sustainability Academy **Dec 2025**
Sustainability Essentials for Supplier (Batch 2)

- Greenhouse Gas Inventory for Organizations Scope 1 & 2
